Information provided by the provider describing their agency:

Key Human Services Inc., (Key) established in 1989, was created to provide an array of community based services as an alternative to institutionalization for individuals with developmental disabilities. Starting with three homes supporting eight individuals from Mansfield Training School, the agency's success is reflected today in its several hundred employees and range of services which include group homes, supported apartments, behavioral management, early intervention, family support, respite care, and specialized nursing services.

Our agency was founded on the principle that individuals with developmental disabilities can live productive and valued lives in the community. Individuals who receive our services usually come to us from their family home or a state residential school.

Key Human Services, Inc. encourages long-term relationships and stresses the importance of natural supports, individuality, respect, choice and the dignity of risk. We believe that all people have equal rights and we support them to exercise those rights to the best of their abilities.

As a principle employer in our field, we value the collective strength and diversity of our employees. Our commitment to applying our resources, talents, financial soundness and contributions within our community positions Key as a leading service provider in Connecticut.

Building on the over 30-year history of our Pennsylvania based parent organization, Key Human Services can be an invaluable resource to families and individuals seeking community based services; it is also a rewarding and respectful place to work.
